

Kind attention all Engineers, Architects, Mechanical, Electrical, MEP, Structural, Design professionals, Program Managers, Project Managers, Project Directors, Project Team Members...

Leadership in Energy and Environment Design

LEED professional credentials:

Distinguish your expertise:

LEED provides building owners and operators with a framework for identifying and implementing practical and measurable green building design, construction, operations and maintenance solutions.

If you are looking to show that you have the key technical knowledge, experience and credibility in the exploding green building marketplace, a LEED professional credential is your pathway to success.

A LEED professional credential signifies that you are a leader in the field and an active participant in the green building movement who contributes expertise to the design, construction, operations and maintenance of buildings and neighborhoods that save energy, use fewer resources, reduce pollution, and contribute to healthier environments for their occupants and the community.

With new jobs specifying the need for expertise in LEED, the LEED professional credential helps you stand out by increasing your opportunity for employment, job stability and promotion, while underscoring your value to LEED project teams and sustainability-focused organizations.

LEED projects have been successfully established in 135 countries. International projects, those outside the United States, make up more than 50% of the total LEED registered square footage. LEED unites us in a single global community and provides regional solutions, while recognizing local realities.

LEED® Green Associate & Accredited Professional (AP) Preparation Course:

This course is facilitating the complete and comprehensive studies necessary for appearing and clearing the LEED Green Associate® and AP examination. This course

FINPRAC Technologies Pvt. Ltd.,

Rajeswari Illam, Ground Floor, 20/15, C. P. Ramaswamy Street, Abhiramapuram,
Chennai – 600018. info@finprac.com, Sobankumar@finprac.com
